1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 15-20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Williams. The device shown by Williams comprises a ring 20 and a separate strap 50 attached to the ring. In the present claims, the introductory statement of intended use and all other functional statements concerning the recorder have been carefully considered, but are deemed not to impose any structural limitations on the claims distinguishable over the device of Williams, which is further capable of fitting on a recorder as claimed. Whether the device of Williams was actually used in such a manner is dependent upon the performance or non-performance of a future act of use, not upon a particular structural relationship set forth in the claims.

Williams does not disclose a recorder. However, recorder users are frequently children. It would have been convenient for such a child to wear the coin holding device of Williams in order to have spare change. Therefore, it would have been obvious for a user of a recorder to also have the device of Williams resulting in the combination being formed on the child's person.

3. Claim 3 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 3 is now the same as claim 2 and will not be allowed in view thereof.

4. Claim 1, 2 and 4-9 are allowed.

Art Unit: 2833

5. Applicant's amendment necessitated the new grounds of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

6. It is suggested that responses to this final action be faxed to:

Please refrain from sending a confirmation copy, as noted in 37 CFR 1.6(d) and 1.8(b).
